IDAHO PLACER MINES SCENE OF OPERATIONS

SALT LAKE CITY, Dec. 8.—The Hammon Engineering Company of San Francisco, which has an earnings record of \$25,000,000 in Oregon, Calif., dredging operations, has just shipped fifty carloads of material and equipment into Feather River, eight miles below Rocky Bar, El Dorado County, southwestern Idaho, and announces that it is making a fifteen dollar investment in a placer mine there which will occupy the attention of two newly built \$150,000 dredges for twelve years.

A group of multimillionaire stockholders with the city million dollar St. Joe Lead Company, of eastern Idaho, has just begun operations in a new placer mine, east of Rocky Bar, in a placer mine which was discovered in 1914. The mine is situated on the south side of the Snake River, about eight miles from Rocky Bar, and is being developed by the Hammon Engineering Company.

At Rocky Bar itself, the old time placer mine, which was discovered in 1914, is being developed by the Hammon Engineering Company. The mine is situated on the south side of the Snake River, about eight miles from Rocky Bar, and is being developed by the Hammon Engineering Company.

Aggressive operations are to commence at once, and it is predicted that the Hammon Engineering Company will be the scene of a great mining camp. The mine is situated on the south side of the Snake River, about eight miles from Rocky Bar, and is being developed by the Hammon Engineering Company.

MUCH LIFE INSURANCE SOLD IN YEAR

(By Associated Press) NEW YORK, Dec. 8.—Reports to the 16th annual convention of the Association of Life Insurance Presidents here today were said to indicate that the new insurance issued in the United States in 1921 will amount to 13,150,000 separate policies for \$8,535,000,000. This will mark a decrease of three-quarters of one percent in the number of policies compared with last year, the most prosperous in life insurance history. The amount of new insurance issued would be 15 percent less than that of last year and 2.6 percent ahead of that of 1919.

Statistics were presented by John M. Holcombe, president of the Phoenix Mutual Life Insurance Company, of Hartford, Conn., who said that the 1921 record in new life insurance marks progress rather than retrogression, and is an encouraging index of returning normal business conditions.

"Returns have been furnished by 148 of the 272 life insurance companies doing business in the United States," said Mr. Holcombe. "These 148 companies wrote 97 percent of the new business of 1920."

PERSONAL

GEORGE HENRIKSEN was a passenger on the morning train for Reno. D. CORCORAN, of San Francisco, registered at the Mizpah. P. D. PRESSELL, the traveling man, arrived from Reno today. JOE JOGNOTI and wife sailed out to Gibraltar today, returning this afternoon.

Auto and Mrs. E. P. CULLINAN were outgoing passengers today for Los Angeles.

CHARLES WHEELER, of Reno, arrived on train 24 this morning, returning from Los Angeles.

JOHN WILSON, security man, collector, was a passenger for Reno today, when a meeting of all agents in the state is to be held at Reno, Nev.

MRS. JACK BARRIER departed for Los Angeles today, where she will join Mr. Barrier, who is called for by his home there.

The same members of the community for a week this morning.

P. W. HARRISON, the well-known mining engineer, arrived today from Reno, where he has been working on the Nevada Placer mine.

TREASURE HILL TO SECURE MACHINERY

At Rocky Bar itself, the old time placer mine, which was discovered in 1914, is being developed by the Hammon Engineering Company. The mine is situated on the south side of the Snake River, about eight miles from Rocky Bar, and is being developed by the Hammon Engineering Company.

Aggressive operations are to commence at once, and it is predicted that the Hammon Engineering Company will be the scene of a great mining camp. The mine is situated on the south side of the Snake River, about eight miles from Rocky Bar, and is being developed by the Hammon Engineering Company.

LABOR COMMISSIONER HERE AFTER REPORTS

Frank W. Ingram, commissioner of labor for Nevada, is in Tonopah from the capital, looking out for the interests of his department.

The commissioner is particularly interested at this time in securing the reports of incorporations and all employees of labor which were asked for some time ago.

Questionnaires were sent to all employing firms during the first part of November asking that they report to the commissioner of labor at the earliest possible date. So far only about 50 percent of those sent out have been returned, and the failure to receive them is delaying Mr. Ingram's report to the governor.

In addition to securing this data, Mr. Ingram, in his capacity of member of the state industrial commission, is looking after the interests of any employees who may have become injured and who is not receiving his proper compensation. The commissioner will be at the Mizpah hotel for the balance of the week.

ELY CONSOLIDATED PLACES MORE MEN

Because of reports that have been sent out and which reached New York during the last week from Raymond Guyer, consulting engineer for the Boston and Ely Consolidated Mining company and S. M. Souppoff, field engineer for the American Smelting and Refining company, the Ely management of the Boston and Ely has been instructed from the New York office to increase the working force and this will be undertaken during the coming week. The force now consists of 13 men, working one shift. This force will be increased and two shifts will be worked. It is estimated that the force will be increased to 20 or 40 men.

AMUSEMENTS

"THE HEART OF MARYLAND" AT BUTLER THEATRE TODAY

The adage "history repeats itself" was never more truly applicable than in making "The Heart of Maryland," a Vitaphone special production, which will be the attraction at the Butler Theatre today.

The location selected was a big antebellum house owned by one of the wealthiest and most historic families of the south. It is here that Jefferson Davis was married and it is in this beautiful mansion that most of the great battles were given in honor of Henry Clay. Since the Civil War the house has lost much of its former pristine glory, and when first seen by the Vitaphone company it was in a sad state of decay and neglect. The magic wand was set to work, and in time the house resembled its former splendor.

Soon the grounds were alive with Confederate soldiers, girls in hoop skirts and crinoline dresses and once more the inhabitants of the town saw their beloved Confederate uniforms march proudly through the streets. The clattering of horses' hoofs, the jangling of sabres, the rumble of ammunition wagons and the roll of cannon caused many of the older residents to weep with joy. It was a sight they had never expected to see again.

This production is a visualization of David Belasco's famous play "Catharine Valmont," will be seen in the color role.

Also latest Pathe News, Tomorrow, Wallace Reid in "The Hell-Digger" and Vladimir Movies.
